RE: Bob Jones Pathway, Environmental Impact Report

Dear Board of Supervisors:

The Avila Valley Advisory Council would like to encourage the Board of Supervisors to certify the Bob Jones Pathway Environmental Impact Report (EIR) and approve the revised alignment between the Octagon Barn and the Ontario Road staging area which includes the EIR's Alternative 6 route. The items are scheduled for your consideration Tuesday, February 24th.

The EIR for the pathway project between the Octagon Barn, on South Higuera Street and the Ontario Road Staging area was presented to the County Parks Commission on January 22, 2015, and was approved with no dissenting votes. Comments from the public were all positive and encouraged moving forward with the project with no more delays.

The Avila Valley Advisory Council concerns regarding key elements have been incorporated with the addition of the under crossings, widening of the pathway, and keeping the pathway off of Monte Road. All of which have become part of Alternative 6 as the proposed route.

It is time to move this project forward so the Federal NEPA report can be completed and other negotiations can take place.

Sincerely,

Jim Hartig

Jim Hartig, AVAC Chairperson
